# Prana Spa at The Villas

Indulge yourself in luxury and escape into fantasy

The Prana Spa transports you to another dimension to an environment inspired by the legendary Moguls of Rajasthan. A universe of visual delights, lingering fragrances, subtle sensations and deep, deep relaxation. A universe where you can forget the cares and tribulations of the modern world and allow yourself to be you.

Here the ancient wisdom of Hindu Ayurveda healing and relaxation arts are practiced by skilled Balinese therapists, who help you through an arsenal of messages and treatments using exquisite blends of rare herbs, precious spices, fragrant oils and unctuous creams. You'll be rejuvenated by the gentle touch of caring healing hands as you are bathed in the scent of rose petals and frangipani, of turmeric and sandalwood.

Prana Spa is another universe. An escape into fantasy. A healing experience that combines the wisdom of ancient Hindu Ayurvedic concepts with modern

technology; fresh organic fruits and vegetables lovingly prepared into delicious healthy meals; and an environment that will ease away the tensions and concerns of your world and free your mind and spirit.

Spoil yourself in royal indulgence. Immerse yourself in the absolute calmness and serenity of this magical environment. Allow Prana Spa to create an indelible experience in your memories of this Bali holiday. Experience holistic healing at its best.
